PROFESSIONAL SUMMARY

PG-DAC graduate from Sunbeam Institute of Information Technology with expertise in Java, Spring Boot, React.js, ASP.NET Core Web API, MySQL, RESTful APIs, Docker, and Git. Experienced in developing full-stack web and Android applications. Seeking a Java Full Stack Developer opportunity to contribute to innovative software solutions.

EDUCATION

PG-DAC (Post Graduate Diploma in Advanced Computing)

SunBeam Institute of Information Technology, Pune

2026

MARKS: 75%

Bachelor of Engineering – Computer Science & Engineering

Sipna College of Engineering and Technology, Amravati

2020 – 2024

CGPA: 8.39

TECHNICAL SKILLS

Programming Languages: Java, C#, JavaScript, SQL

Frameworks: Spring Boot, Spring MVC, Spring Data JPA, Hibernate, React.js, ASP.NET, Web API

Web Technologies: HTML5, CSS3, JavaScript (ES6)

Databases: MySQL, SQLite, Firebase Realtime Database

Tools: Git, GitHub, Maven, Docker, Postman, VS Code, Android Studio

PROJECTS

Child Adoption Management System | Java, Spring Boot, React.js, ASP.NET Core, MySQL

- Developed a full-stack child adoption platform using Spring Boot, ASP.NET Core Web API, React.js, and MySQL.
- Implemented RESTful APIs, JWT Authentication, and Role-Based Access Control (RBAC) for secure user and admin access.
- Used Spring Data JPA (Hibernate) and Entity Framework Core for efficient database operations and CRUD functionality.
- Built responsive user and admin modules for child management, adoption applications, and application status tracking.

Home Service Aggregator | Java, Spring Boot, React.js, MySQL, Google Maps API

- Developed a full-stack web application connecting users with nearby service providers such as plumbers, electricians, and carpenters.
- Built RESTful APIs using Spring Boot, Spring Data JPA (Hibernate), and MySQL for secure data management and CRUD operations.
- Integrated Google Maps API for location-based service discovery and provider tracking.

Chatting Application with Authentication | Java, Android, Firebase

- Developed a real-time Android chat application using Java, XML, Firebase Authentication, and Firebase Realtime Database.
 - Implemented secure user authentication and real-time messaging with instant data synchronization.
 - Designed an intuitive Android user interface and optimized backend logic for reliable message delivery.
-

EXPERIENCE

 Customer Care Executive | Conneqt Business Solutions

December 2024 – June 2025

- Resolved customer queries while ensuring high customer satisfaction and service quality.
 - Analyzed and escalated complex issues to the appropriate teams for timely resolution.
 - Strengthened communication, problem-solving and customer relationship management skills.
-

ACHIVEMENT : Winner – Case Study Hackathon Secured 1st position in a case study–based hackathon conducted by SunBeam Institute of Information Technology, demonstrating strong problem-solving, analytical thinking, teamwork, presenting an innovative solution to a real-world challenge.
