XII	Science	Mahatma Gandhi Vidyalaya	Maharashtra State Board	2021	82.66 %	I
X	General	Mahatma Gandhi Vidyalaya	Maharashtra State Board	2019	80.2 %	I

Academic Projects

Title : Child Adoption System
Platform : J2EE, Springboot, React, Asp.net, MySQL **Duration** : 1 Month
Description : Child Adoption System: Developed a microservices-based Child Adoption System using Spring Boot, React.js, Java, Python, and MySQL. Implemented OOP, Dependency Injection (DI), Entity Framework Core, Spring Data JPA, JWT Authentication, ASP.NET Core Web API, Role-Based Access Control (RBAC), RESTful APIs, Exception Handling, Validation, and Clean Architecture to build secure and scalable services for managing child records, adoption requests, home visit reports, document verification, and adoption approvals. Integrated an AI-powered chatbot using Python to provide user assistance and answer adoption-related queries.

Title : Decentralized Loan Management System
Platform : React.js, Node.js, Express.js, MySql **Duration** : 6 Months
Description : Developed a web-based application to manage loan applications, approvals, and repayments efficiently. Implemented secure user authentication, loan status tracking, repayment scheduling, and transaction history management. Designed responsive user interfaces and integrated RESTful APIs for seamless communication between frontend and backend systems.
